

Shared Apprenticeship Management System (AMS)

NSAA Industry Meeting
November 01, 2017

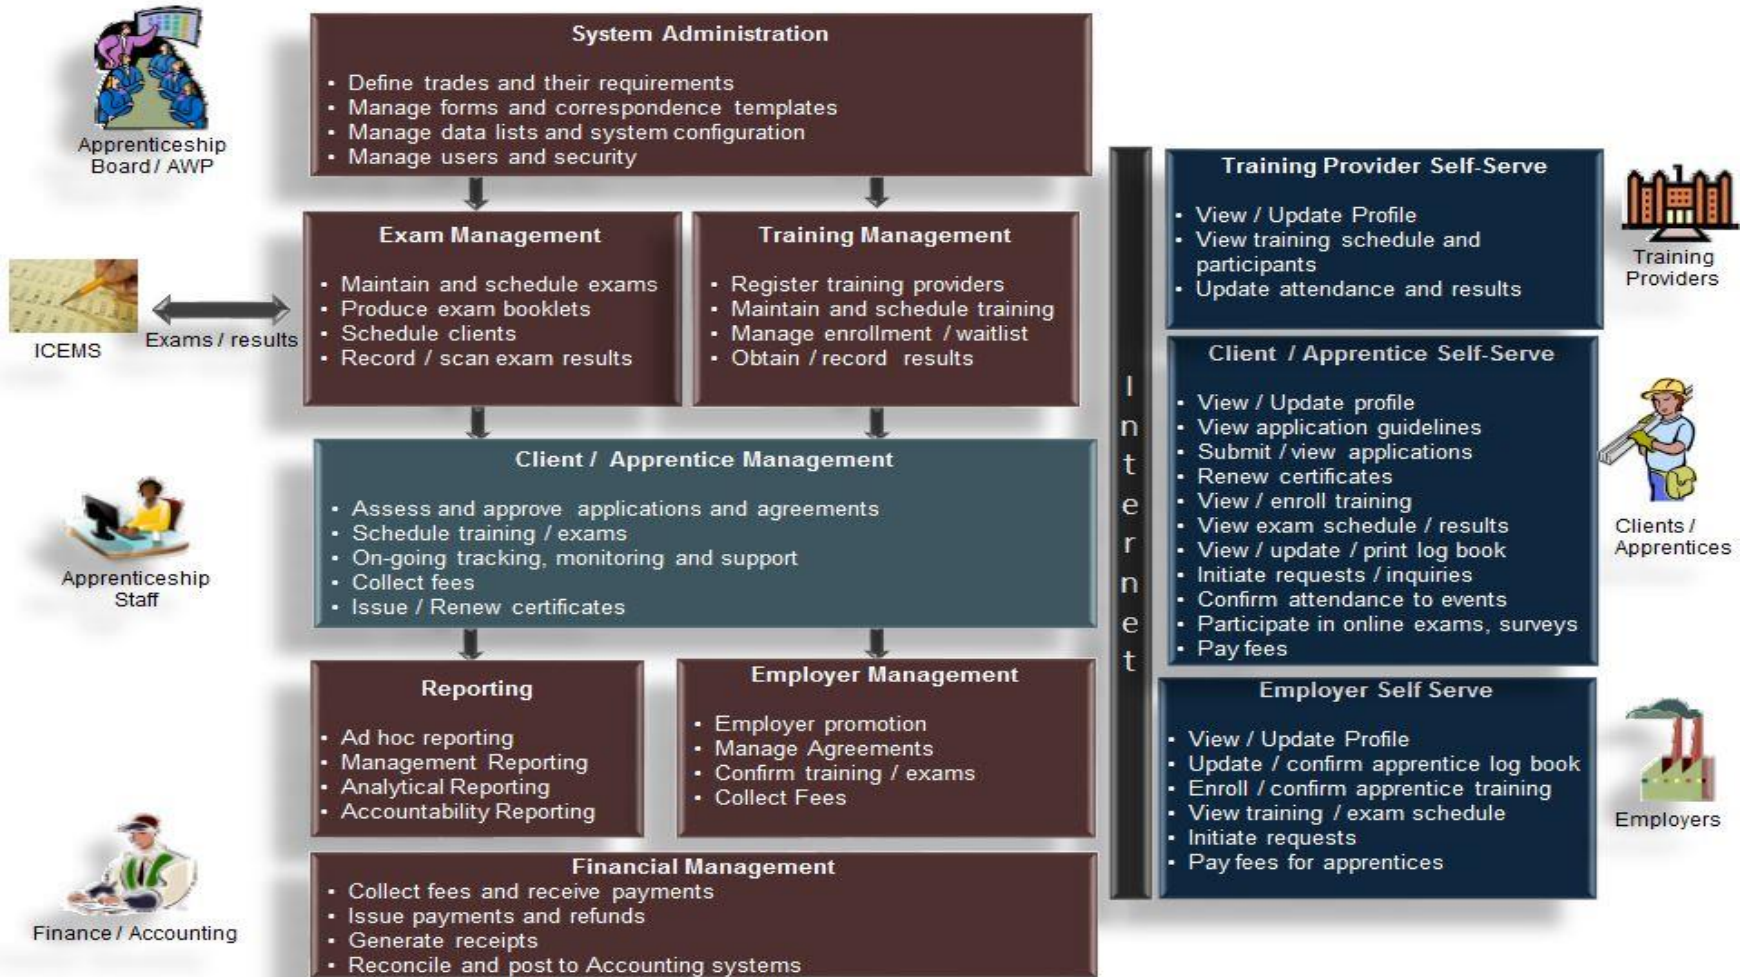

How Did We Get Here?

- ▶ 5 Provinces working together
 - MB, NB, NL, NS, PE
 - ▶ AMS is being developed by a Consortium in partnership with government
 - ABM Integrated Solutions Lead
 - ▶ AMS is a customized version of iTacit
 - iTacit = Custom Off The Shelf (COTS) solution
 - Being transformed to support apprenticeship management
- 

Phases of the AMS Project

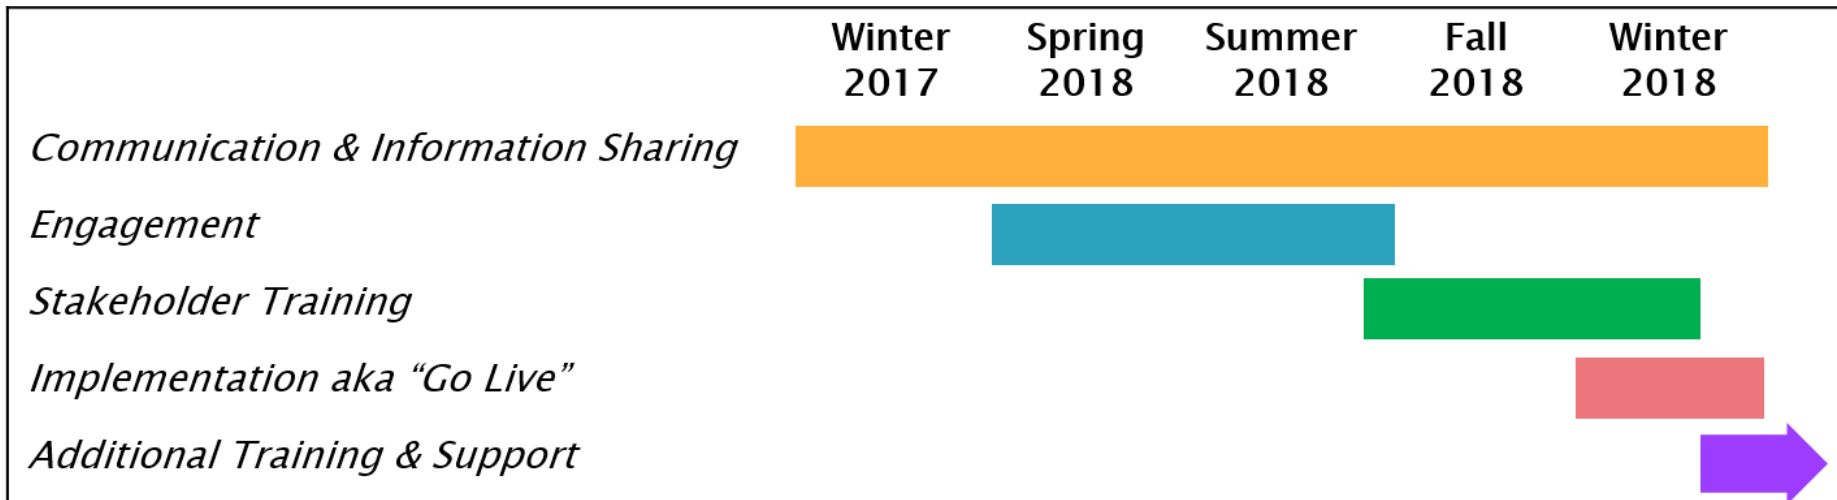

- ▶ Project Initialization/Requirements Finalization
 - Confirm Requirements with SMEs
 - ▶ Core Application Development
 - Develop the Core System as an Apprenticeship COTS
 - Seven (7) Releases
 - ▶ Provincial Implementation Plans
 - Develop Interfaces, Environment Set Up
 - “Leap Frog” Approach
- 

Scope of the AMS Project

Will I Have A Voice?

- ▶ Yes! Between now and implementation we will:
 - Be communicating progress
 - Reaching out for your input
 - Providing training & support

Questions? NSAA-AMS@novascotia.ca

Apprentice Benefits

- ▶ Enhanced service delivery times
 - No more paper!
- ▶ Easy access to apprenticeship electronic file
- ▶ Apply for services and pay fees online
- ▶ View hours and skills
- ▶ Apply for technical training and exams online
- ▶ Update tombstone information (e.g. address, phone)
- ▶ No longer have to apply to the Agency for Federal grants and risk missing apply before dates
 - AMS will provide required information automatically upon eligibility
- ▶ Enhanced mobility
 - Electronic record will follow apprentice

Employer Benefits

- ▶ Ability to manage your apprentice and track progress
 - Register / Cancel / Transfer an apprentice
 - Electronic Logbook
 - Confirm apprentice is scheduled for training or to take an exam
 - Access to exam breakdown results (pass/fail)
- ▶ Faster service delivery times (paperless)
- ▶ Enhanced communication tool
 - New AMS notification tool (e.g. notified when apprentice is scheduled for training)
- ▶ Monitor ratio
- ▶ Compliance management (e.g. access to compliance inspection reports)

Let's Talk
