What is the attendance policy?

- Promptness and regular attendance are expected from all apprentices attending technical training to ensure program success and apprentice progression. Following an extended absence, the Nova Scotia Apprenticeship Agency reserves the right to communicate absenteeism by the apprentice to employers, Service Canada or third-party partners.
- Late arrivals or early departures of more than thirty minutes will be considered a ½-day absence.
- Apprentices must attend 90% of the total technical training days per level. If an apprentice misses more than 10%, the instructor will contact the apprentice's Industry Training Consultant who will discuss next steps with the apprentice.

How do I apply for technical training?

- Make sure you are a registered apprentice.
- Complete and submit the [Technical Training Enrolment Form](#):
 - a. Prior to submitting the form, you must have your employer's approval to attend the training.
 - b. Submission of the form does not guarantee you a seat in training. If your application is approved, you will receive written confirmation that you are scheduled to attend the training.

Can I take two levels of training in one training year?

- In many trades, this should be avoided. Our training programs/curricula are continually changing or being updated. For example, if you take a harmonized level 2 in September, and then a non – harmonized or an old level 3 in the new year, you will likely experience repeat material and/or gaps, and you may be required to take additional training to fill the gaps. In this case, you should wait until the new harmonized level 3 is offered (probably next training year) before returning to school.
- If you don't know which training you should register for, contact the Agency.

Atlantic Trades Business Seal (ATBS)

- The Atlantic Trades Business Seal Program is a continuing education program for Atlantic journeypersons to advance their business and leadership skills and to gain regional career mobility. The seal can prepare you to take over a managerial role at your company or to start your own business. If you are already a business owner, the program can help you develop the skills you need to take your business to the next level.

Details: 6 hours per week (3 hours per evening, 2 evenings per week). Total of 150 hours (Five courses x 30 hours/course).
