Training Delivery Options

In-Person Training will be delivered on campus with instructor-led sessions full-time Monday through Friday for the duration of the training. This is typically 30 hours per week of class time. Training is in-person unless otherwise stated.

Blended (In Person/Online) Training will be delivered both on campus and virtual with instructor-led sessions full-time Monday through Friday for the duration of the training. Training is blended and therefore, course material will be delivered through Brightspace Learning Management System and will incorporate other digital learning tools (e.g. Microsoft Teams), and some in-person learning on campus. Dates for on campus technical training will be provided by the instructor.

Remote (Instructor Led) will be delivered full-time remotely via instructor-led sessions Monday through Friday. Training materials are delivered in the Brightspace Learning Management System and will incorporate online meeting tools (e.g. Microsoft Teams). There is no on campus component.

Online (Instructor Led/ Self-Paced) is primarily self-paced training but weekly sessions with an instructor will be scheduled to support your success. The schedule of those sessions will be provided by your instructor. Training is delivered in the Brightspace Learning Management System and will incorporate other digital learning tools (e.g. Microsoft Teams). Start and completion dates are indicated in the schedule below.

Online (Self-Paced) training will be completely self-paced. Courses combine a variety of learning experiences, but do not include scheduled instructor-led sessions. However, instructors are available via email or phone for support. All course materials and assessments are delivered through the Brightspace Learning Management System. These levels begin on a date determined with your [Industry Training Consultant](#). Please note: Once you have completed the online training you must apply to write your [level exam](#) if required.

What is the attendance policy?

- Promptness and regular attendance are expected from all apprentices attending technical training to ensure success. Following an extended absence, the Nova Scotia Apprenticeship Agency and the training provider reserves the right to communicate absenteeism by the apprentice to employers, Service Canada, or third-party partners.
- Late arrivals or early departures of more than thirty minutes will be considered a ½-day absence.
- Apprentices must attend 90% of the total technical training days per level. If an apprentice misses more than 10%, the instructor will contact the apprentice's Industry Training Consultant who will discuss next steps with the apprentice. This could result in being dismissed from the training.

How do I apply for technical training?

PLEASE NOTE : Enrollment in Technical Training is available for up to 30 prior to the start of training. There will be no admissions after that date.

- Make sure you are a registered apprentice. For more information on how to register as an apprentice, [click here](#).
- Complete and submit the [Technical Training Enrolment Form](#):
 - a. Prior to applying for training, you must have your employer's approval to attend the training and make sure your hours are updated with your industry training consultant.
 - b. Submission of the form does not guarantee you a seat in training. If your application is approved, you will receive emailed confirmation that you are scheduled to attend the training within, provided your information in our system is up to date.

Can I take two levels of training in one training year?

The Nova Scotia Apprenticeship Agency periodically updates our training based on input from industry and our Atlantic harmonization efforts. We recommend that before you enroll in two levels of training in one year, you contact your Industry Training Consultant to ensure that you do not repeat any material or experience training gaps.

If you don't know which training you should register for, please [contact the Agency](#).
